GREATER MANCHESTER

Chronic Kidney Disease

CKD Discovery Project

We invite Health Care Professionals involved in managing CKD within the Patient Pathway in Greater Manchester.

Free to attend - CKD workshops - Round 2

Tuesday 12th March

🕒 17.00-20.00 📍 City Labs 1.0, Manchester, M13 9NQ

Wednesday 13th March

🕒 17.00-20.00 📍 City Labs 1.0, Manchester, M13 9NQ

Thursday 14th March

🕒 13.00-16.00 📍 City Labs 1.0, Manchester, M13 9NQ

In round 1 we wanted to make sure that we built a balanced understanding; hearing not only from doctors, nurses and care teams delivering CKD care but also from patients and carers who receive this care. Round 2 workshops bring together insights and ideas from diverse stakeholders to **co-create new opportunities and solutions that can address the specific needs and priorities across Greater Manchester** - this will be a collective starting point for change across the CKD pathway.
